

Special Education

Aspley State High School's Special Education Program was established in 1997 to support students who were ascertained to be totally blind or had severe low vision.

From 2008, the Special Education Program expanded support services to cater for students with diagnosed disabilities in the areas of Intellectual, Autistic Spectrum Disorders and Speech Language Impairments in addition to its program of excellence for students with Vision Impairment.

For general information please click on the following programs:

- Vision Impairment Program
- Intellectual Impairment Program
- Speech Language Impairment Program
- Autistic Spectrum Disorders Program
- Hearing Impairment
- Physical Impairment
