

Newsletters

The Aspley State High School Newsletter is published each fortnight and includes articles prepared by Administration Staff, Students and Parents on matters of interest.

As part of our schools approach towards the way we communicate with you, and to also do our part for the environment and save paper - newsletters can be sent directly to your email address. To do this, you need access to a computer and email. Please go to the web address below and enter your details.

<http://mailouts.austnews.com.au/subscription/A/aspley-shs-signup.html>

Those families who were already receiving emailed newsletters will continue to receive newsletters, but please go to the above link and officially enter your details so that your subscription is formalised. There is no cost to you or the school at all.

If you do not have access to computer/email, a hard copy will be available for collection from the school office.

The school distributes this newsletter to employer and community groups, local schools and politicians.
